

Customized Mounting Kits

- We produce Custom Machined Couplings in many different executions, Stainless Steel or Zinc plated Steel.

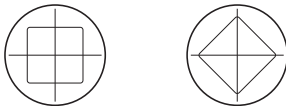

DIMENSION OF THE COUPLING

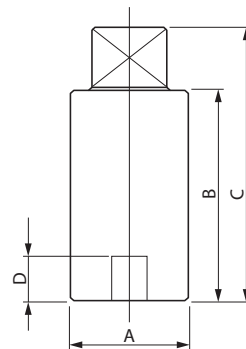

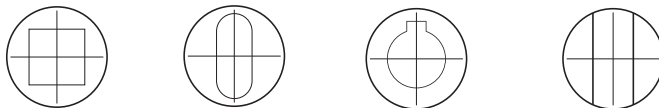

To be able to produce couplings we need to know the following, preferable to get a drawing or a sample:

- Valve information such as brand, type and size
- Valve shaft measures (height, diameter etc)
- ISO-flange dimension on the valve
- Actuator size

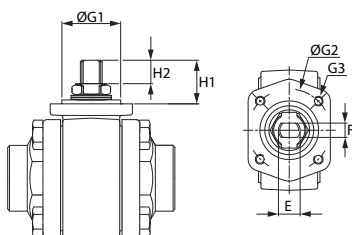

CONNECTION TO THE ACTUATOR

CONNECTION TO THE VALVE (SAMPLES)

Ball valve

Butterfly valve
